Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 20-31 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/26/06.
2. Applicant's election with traverse of Species 1 in the reply filed on 7/26/06 is acknowledged. The traversal is on the ground(s) that "the entire application can be examined without the "serious" burden contemplated by M.P.E.P. 803." This is not found persuasive because each of the various disclosed species details a mutually exclusive characteristic of a loading mechanism as evidenced by the representation of each various species with a different figure or set of figures. .

The requirement is still deemed proper and is therefore made FINAL.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

4. Claims 1-19 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record neither suggest nor renders obvious the instant combination in a loading mechanism for loading an information recording medium in a predetermined position and unloading the information recording medium therefrom, the loading mechanism comprising a frame; a tray, the tray including a groove part extending along the first and second opposite directions; and at least three projections arranged on said frame at predetermined intervals along the first and second opposite directions, the projections including first and second guide and support parts forming first and second ends of the arrangement of the projections, the first and second guide and support parts coming into substantially point or linear contact with the groove part of said tray so as to guide and support said tray when said tray is in the second position as set forth in independent claim 1.

The prior art of record neither suggest nor renders obvious the instant combination in a loading mechanism for loading an information recording medium in a predetermined position and unloading the information recording medium therefrom, the loading mechanism comprising a tray, the tray including at least three projections arranged along first and second opposite directions, the projections including first and second projections forming first and second ends of the arrangement of the projections; and a frame including a guide groove that guides the projections of the tray, the guide groove extending along the first and second opposite directions, wherein the tray is movable between a first position and a second position, the first and second projections come into substantially point or linear contact with the groove part of the tray when the tray is in the second position as set forth in independent claim 12.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. This application is in condition for allowance except for the following formal matters:

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
